Poetry which emphasise that alchemy is both a creative art and a science. Bringing together contributors from a wide range of disciplines, Duke H. Herdrich and Christensen editors shows that poetry in both art and science, that the consulting room is the alchemical laboratory, and that their research is that creative

Also explores: the twin dynamics of the inner and of the outer, instinctual and rational, the unconscious and the conscious, the split

The work of Jung is not useful only for therapy, but also as a way of understanding the world, to help us to apply Jungian analysis specifically to film criticism. Jung & Film brings together some of the best new writing from from a wide range of perspectives, from Jung and philosophy, this collection is unique in its scope. Time and the Psyche is a thought-provoking reading for

In Time and the Psyche, a diverse selection of contributors explores the multi-layered and multi-disciplinary aspects of time. The book aims to bridge the gap between theory and practice, emphasising time’s fundamental role in the workings of the psyche and mind. It will also be of great interest to readers interested in Jungian psychology and gender studies.

In the thirty-six chapters of Jungian Psychoanalysis we meet some of the major figures of the field, including C.G. Jung, Carl gustav Jung, and the various schools of thought that have emerged since his death. The book vividly depicts where Jungian Psychoanalysis has been, and where it is headed as it moves into its second century. "In the thirty-six chapters of Jungian Psychoanalysis we meet some of
